XIO Strategies Announces Two New Contract Awards
*Company to play key role in conducting DoD training and
providing subject matter expertise to the Naval Sea Systems Command*

VIENNA, VIRGINIA – XIO Strategies, Inc. today announced it has commenced work providing subject matter expertise for two Department of Defense (DoD) programs as subcontractor to Science Applications International Corporation (SAIC) [NYSE:SAI].

The first award is in support of the DoD's Purchase Card On-line System (PCOLS) program. Under the initiative, XIO will help develop training materials, conduct on-line and on-site training sessions for the DoD community, and support training activities at eBusiness and Purchase Card conferences.

Under the second award, XIO will offer guidance regarding the DoD's IUID policy and the application of that policy to the Navy's Littoral and Mine Warfare (LMW) operations and supplier contracts. In this effort, XIO will review and update the LMW Sonar Mine Detecting Set (AN/AQS 20A) UID Implementation Plan in accordance with life cycle acquisition process.

"We're excited to build on our strong foundation of providing subject matter expertise in Automatic Identification and Training services with these two key initiatives," said Mary Ann Wagner, XIO Strategies' President. "Both engagements enable our continued support of enhanced DoD operations, and further demonstrate the breadth of experience the XIO team brings to each project. XIO is pleased to work with SAIC on both of these efforts."

About XIO Strategies, Inc.: XIO Strategies, a Vienna Virginia-based woman-owned business, specializes in providing end-to-end supply chain management and communications consulting services to government, military and commercial organizations. XIO works with organizations both large and small to effectively support technology deployment, conduct research and training, create marketing materials, and manage communications programs during periods of change.
